

TAXES ARE HIGHEST IN STATE HISTORY

\$71,000,000 IS STAGGERING STATE TOTAL

Average Rate is 18 Mills as Compared With 14.63 Last Year

OTHER COMPARISONS

Tax Rate During the La Follette Regime Was 10.95 Mills

Wisconsin people are paying the highest tax bill ever assessed in the state this year.

The local, county and state taxes collected on real and personal property this year, will reach over \$71,000,000 according to the computations which are being made at the office of the state tax commission. The average tax rate throughout the state is 18 mills as compared with 14.63 mills last year.

That taxes have been bounding up at a rapid rate in Wisconsin during the past few years is disclosed by the records at the tax commission. At the close of Gov. La Follette's administration in 1906 the total taxes collected for local, county and state on the general and personal property of the state was \$23,267,646. The tax rate throughout the state averaged 10.95 mills.

At the close of the administration of Gov. James O. Davidson in 1909 the total real estate and personal property taxes collected throughout the state were \$29,387,107.

During the fall of 1914 Gov. Philip Wagner waged a campaign in the state against high taxes. The McGovern administration was charged with being extravagant. The taxes collected that year reached the sum of \$42,755,085 and the average tax rate throughout the state was a rate of 13.57 mills. In 1918 the total local, county and state taxes collected in Wisconsin were \$56,371,298 and the average rate throughout the state was 14.93 mills.

The tax payers this year will pay over \$71,000,000 on their real estate and personal property. A part of this increase in real estate taxes has been caused by the enactment of the soldier bonus legislation a part of which is raised on the general property of the state. But in addition to this there are other taxes collected in Wisconsin. The net amount of cash which will come from state income taxes under the regular law will approximate \$6,000,000. The soldier bonus sur-tax on incomes will produce \$7,000,000 additional in cash and the soldiers' educational law with another sur-tax adds the additional sum of \$1,400,000. Besides this the railroads of the state pay about \$5,355,000 into the coffers of the state.

Taking all of the taxes, real estate and personal, the regular income taxes and the sur taxes on incomes and the railroads, the tax bill in Wisconsin this year is over \$90,000,000. This is the largest amount of taxes ever collected in the state.

The general property taxes in Wisconsin alone this year for local, county and state are three times larger than they were at the beginning of the administration of Gov. Davidson and nearly 75 per cent higher than they were when Gov. McGovern made his campaign in 1914 defending the taxes paid in Wisconsin at that time. The complete compilation of all taxes will be ready for announcement at the tax commission within a few days and there are some who believe that the belated returns from unheard of counties may raise the general and personal property tax to nearly \$75,000,000. Only the most conservative estimate is yet announced by the tax commission.

Whiskey Cure For Flu? No, Say Doctors

CHICAGO—One hundred cases of "no man's" whisky will be thrown into the lists against Chicago's influenza epidemic today, if plans of District Attorney Clyne receives the sanction of Federal Judge George A. Carpenter.

Mr. Clyne's proposal is in opposition to Health Commissioner Robertson's repeated assertion that "whisky is exactly the wrong medicine for influenza and pneumonia." "Chicago hospitals are full to overflowing now," Mr. Clyne said, "and, despite all argument to the contrary, many people believe in the old fashioned pneumonia cure. The hospitals need good whisky for other medical purposes, too, and I think that this is an opportune time to distribute Uncle Sam's surplus stock to places where it will do the most good."

"Whiskey No Cure"—Robertson
"Tell Clyne to go ahead and prosecute the food profiteers and not to feed the people whisky for pneumonia or influenza," Dr. Robertson said. "Whisky is not a remedy for pneumonia. It can neither prevent nor cure."

"Get down the works of the late Dr. Oster and see what he says. I take the same position he does. So does Dr. Blue, with whom I talked today. So does the medical director of Great Britain. Every one who has studied the subject has arrived at the same conclusion, that whisky is not a remedy for pneumonia, and should not be used."

"I have no objection to the turning over of whisky to the hospitals to be used in cases where it may properly be prescribed by physicians. But to turn loose a quantity of whisky at this time as an alleged cure for pneumonia and influenza is both harmful and untruthful."

Many Cases At St. Louis
ST. LOUIS, Mo.—Influenza continued to gain ground in St. Louis today, 445 new cases being reported in the last 24 hours as against 429 yesterday. The death list reported during the same period showed eleven from influenza and 21 from pneumonia. The total number of influenza cases reported since January 19, when the disease was pronounced epidemic is 2,087.

Situation in Chicago.
CHICAGO—Pneumonia, following in the wake of the influenza epidemic today reached the highest level since the contagion appeared. Health authorities reported 407 new cases of pneumonia and 77 deaths. Influenza continued to subside. During the last 24 hours, 1,472 new cases were reported and deaths numbered 87.

SISTERS HOME PROPOSED SITE FOR NEW CLINIC

Reported That Drs. Jackson May Buy Property on Washington Avenue

There is a possibility that the St. Regina Sisters' home on West Washington avenue and Henry street may ultimately be sold. A rumor is current that the Drs. Jackson have an option on the property, but this is denied, although there is a possibility that they may have put in a bid on the property for a site for a hospital clinic.

The St. Regina home is owned by the Dominican sisters. It was the policy of the order for some time to furnish these homes in the different parishes. Recently this policy was reversed and the order is now asking that in parishes where schools are established that the parish furnish the home for the sisters. In those parishes where the order owns the sisters home, the parish is being asked to purchase the same from the order. The money to be obtained from these sales will be used in the upbuilding of Edgewood Villa, Wingra park.

"The Mother Superior has written to us asking that the St. Raphael's parish purchase the St. Regina home," said Father T. B. Johnson today. "This gives the parish the first right to accept the offer. The parish has not been answered, but it is probable that the parish will not be able to take over the home. The parish owns other property upon which a new home could be built if necessary. I know nothing about the rumor that the Drs. Jackson have an option on the property. Certainly the parish has the first option."

DEBS' SPEECH IN THE RECORD

Cleveland Address is Introduced in New York Hearing

ALBANY, N. Y.—Eugene V. Debs' "last speech before his voice was silenced" by a penitentiary sentence of ten years for violating the espionage act was read into the record today at the trial of the five suspended socialist assemblymen. In his speech, made before socialists in Cleveland last March, Debs, declaring he spoke as a "socialist," a revolutionist and a bolshevik, praised Lenin and Trotsky, "as the greatest statesmen in the modern world," and expressed defiance of the laws of this country and the supreme court. The speech was distributed in pamphlet form by the city committee of the socialist party of Greater New York," according to the prosecution.

BIG BUSINESS ATTEMPTS TO GAG COLLEGE

Beloit is Scene of Hot Fight Over Right to Retain Liberalism

BRANNON IN STAND

Business Interests of the City Demands Heads of Belligerent Professors

BELOIT, Wis.—Beloit college, a little educational institution set down in the midst of an industrial community where the word of the business interests is law, is attempting to assert its right to academic freedom.

College men all over the country are watching the sturdy attempt that is being made by Beloit college to declare its right to freedom of opinion even though such opinion be distasteful to the business barons and financial interests of Beloit and Chicago. Whether the right to liberalism is to have a place at Beloit or whether it is to be smothered by the forces of reaction is the question that is being fought.

The question has been raised by the sudden resignation of President M. A. Brannon of Beloit College.

Show Teeth To Wealth
For some time Beloit has had in its faculty a little group of professors and instructors who have refused to allow the bankers and manufacturers of Beloit to prescribe their economic creed for them. They had their own ideas and they gave voice to them.

This displeased the town aristocracy and they went to President Brannon and demanded the heads of these belligerent teachers. "Bolshevik" was the convenient word.

Anti-Skid Chains For Milady's Shoes Is Latest Invention For Pedestrians

The anti-skid chains attached to the sole of a woman's shoe. During these days of ice and snow when anti-skid chains are worn by automobiles and horses, a thoughtful inventor has produced anti-skid chains for women to go along with those already invented for man, beast and machine. Unlike the more or less clumsy ones for men, these unique little chains for women can be carried in an ordinary handbag and be slipped on with a single clamp on the outside of each foot as easily and quickly as a pair of rubber overshoes. This first pair for women was snapped on a Cincinnati street.

TITTEMORE'S JONES ADMITS RAIL STAND KEISTER ACTION LABOR TARGET IS UNDER WAY

Conference in Milwaukee Stirs up Charges of Double Dealing

Are the present leaders in the Equity society attempting to take both the side of organized labor and Big Business on the railroad question?
That is a question which has arisen following some sharp statements that have appeared in Milwaukee papers since the meeting of representatives of the railroad brotherhoods, organized labor, the Equity Society and the Nonpartisan league held in Milwaukee to discuss plans to fight the Esch and Cummins bills and extend government control of railroads for two years.

Labor leaders are ready to ask the Equity leaders to lay their cards on the table and refuse the charge that they are playing double on this issue. These leaders are also ready to find out whether the Tittmore forces are playing square with labor while at the same time dealing with interests in the state that are bitterly opposed to labor.

2 FLU DEATHS TODAY BRINGS TOLL TO 11

Miss Jean Howell and Miss Leota Sears Die at the Infirmary

28 NEW CASES TODAY

Number in City Has Now Reached 194; Reports From Hospitals

BULLETIN

The lowering of the ban on Madison due to the influenza epidemic here has not been decided upon according to the decision of the board of health which met at the offices this afternoon at 2 o'clock. The board feels that the situation today does not warrant a ban.

The board will meet each day to talk over the situation and as soon as it is believed advisable the necessary steps will be taken. "There are a good many cases of influenza in the city today," said Dr. H. E. Purcell, health officer, "but so far fewer new ones have been reported than yesterday. People are urgently requested to avoid public gatherings and to take care of colds."

Two more deaths in university circles reported today had brought Madison's toll of lives from the influenza epidemic up to 11 early this afternoon. The victims were Miss Jean Howell, instructor in English at the university, who died Wednesday afternoon at 6 o'clock at the infirmary, and Miss Leota Sears, a junior in the home economics department of the university, who died this morning, following a 9 days illness. Relatives were with Miss Sears. The body of Miss Howell was taken to the Frantsch funeral parlors, pending word from her parents in Brooklyn, N. Y.

With the twenty-eight new cases reported this morning, the number of influenza patients in Madison, which has been steadily mounting for the past few days, reached 194, according to reports from the board of health at noon. These cases are in 140 placarded homes.
Four other students at the university died yesterday. Miss Josephine Van Slyke of Oshkosh, who died at 11:30 last evening after an illness of two days, traceable to a cold which she incurred while returning to Madison from her home. She was a junior and roomed at 921 University ave. The body was taken to the Frantsch funeral parlors.
Miss Ida Schuesselman, a junior in the college of letters and science, aged 21, and been ill for more than a week at the infirmary, where she died yesterday. Her home in Madison was at 1102 W. Johnson st. The remains, which were taken to the Gill funeral parlors, will be shipped to La Fayette, Ind.

The other deaths were: Charles W. Blackstone, aged 18, son of Dr. and Mrs. R. W. Blackstone of Shullsburg, Wis., a freshman in the college of electrical engineering, who died yesterday afternoon following more than a week's illness; and George Burton Beach, of Muscatine, Ia., a freshman in chemical engineering, who roomed at the university. Mr. C. A. died yesterday. Mr. Blackstone's parents have been in the city since last Friday.

Six men at the Y. M. C. A. were ordered by doctors to remain in their rooms yesterday. Students are ill and under quarantine in 15 rooming houses in the university section.

Forty-seven new cases were reported Wednesday at the board of health, making a total of 155 cases in 117 homes. Five new city cases were reported this morning and 6 from the university infirmary.

The general hospital this noon reported 12 cases of flu, two more than yesterday, and all the patients doing well. There were no calls at the hospital during the morning for flu patients.

St. Mary's hospital now has 26 cases of influenza, and while most of the patients are doing fairly well, there are several serious cases. No deaths occurred there during the night or morning, however.

Conditions at the university infirmary are very much the same as yesterday, but it is believed that fewer new cases are being brought in. Dr. W. S. Middleton, who has been at the infirmary constantly for some time, was unwilling to state whether the cases had increased in virulence, and he would say nothing regarding the advisability of a ban on the city.

Members of the council have been called to a special session at 10 o'clock Friday morning to witness a movie demonstration of the White truck and trailer system of garbage collection at the Strand theater.

How old is Grandpa?

Years ago the term "Grandfather" usually meant a very wrinkled old man leaning on a cane.

Today, almost any hale and hearty fellow of middle age may be a Grandpa—but if he carries a cane it's for LOOKS and not to lean on.

Grandfather's clothes have changed too.

Of course, you could call our staple suits "Grandfather's Clothes" if you wanted to, but just let us put one on the average man of 45 to 60 and if you can discover anything old fashioned in its lines—we'll buy you the best dinner in the city and Grandpa can come along with us for a chaperon.

Yellow Mustard For Rheumatism

A good hot mustard plaster or poultice is pretty sure to overcome most rheumatic pains and even sprains and gout but it's a messy affair and generally blisters.

Heat is absolutely necessary if you want permanent relief. Beggs' Mustardine, made of true yellow mustard with other pain relieving ingredients added is just as hot, is cheaper, cleaner and more effective than the old fashioned poultice or plaster and cannot blister.

Besides rheumatic pains and swellings, Beggs' Mustardine is speedily effective for lumbago, backache, neuritis, pleurisy, bronchitis, sore throat chest colds and all aches and pains because heat causes pain. All Druggists or by mail. S. C. Wells Co., Le Roy, N. Y.—Adv.

ESSAY WINNERS TO WASHINGTON TO GET PRIZES

Army Contest Means Free Trip With Sec. Baker Making Awards

Three students, boy or girl, representing the schools of America, public, private, sectarian or non-sectarian, will receive from Secy. of War Newton D. Baker, on May 5, in Washington, medals for having written on Feb. 20 the three best essays on the subject: "What Are the Benefits of an Enlistment in the U. S. Army?"

The contest is open to students of all schools except colleges and universities. The war department is conducting the campaign and the winner, accompanied by their parents or guardian, will have their railroad fares and expenses paid to Washington. Each winner will receive a medal and a silver cup presented to him or her by Secy. Baker himself.

Secy. Baker, Gen. Peyton C. March and Gen. Pershing will be the judges. The first prize will be a gold medal, the second a silver medal and the third a medal of bronze.

Rules of the Contest. Essays to be written in class rooms on Friday, Feb. 20, from notes if desired.

No essays to be more than 400 words. Pen and ink or pencil may be used but only one side of the paper written on.

Essays will be judged strictly on (1) Originality, (2) Sincerity (3) Expression.

Each school will be the judge of its own product. The principal of each school will appoint a board of three members to pass on the essays written in his school. The board will select one of the best essays and forward it not later than Feb. 27 to the army recruiting station nearest his school. The district recruiting officer will appoint a board of three members to pass up on the essays submitted by the schools of his district. From the board will select one as the district entry and forward it to Washington, where it will be passed on by Secretary Baker and General Pershing and March.

The announcement of the prize winners will be made on April 19, the anniversary of the battle of Lexington.

To Address Students. On Friday, Lieut. Crane and Brady, the officers in charge of the Madison recruiting drive, will be at the local Y. M. C. A. to explain the educational opportunities and the new policies of the army. It is hoped that all students that have any questions to ask and are interested in hearing the objects of the present drive will be on hand between noon and 1 o'clock.

The members of the recruiting party are all from the 4th division provisional regiment that has just returned from strike duty at Gary, Ind. Several units of this organization have been allotted to Wisconsin to recruit up to the required strength.

Ask Farmers to Join Holstein Band Wagon

APPLETON—Every farmer in Outagamie county will be invited soon to get on the Holstein bandwagon. The members of the Fox River Valley Holstein Breeders' association are staging a whirlwind campaign reaching into every township. Already there are 400 or more adherents of the black and white breed in the county the officials of the drive expect to net many more. At the close of the campaign a fieldman will likely be employed to devote his entire time to advancing the interests of the breed. The association membership has been interested in the organization of a mutual live stock insurance company which is being promoted by the members of the Winnebago County association.

SAYS COAL CO. MADE MILLIONS

Statistician Claims One Firm Made 21 Millions in Two Years

WASHINGTON—Miners' representatives completed their presentation of wage and coal mining cost statistics to the president's commission to settle the coal strike, Wednesday.

Carl H. Bittner, statistician for the miners' union, said the advance in living costs since 1913 was 85 percent. His figures showed that the Pittsburgh Coal Co. made a net profit of \$3,600,000 for the two-year period of 1914-1915, while for the two-year period of 1917-1918 the net profit was more than \$21,000,000. The profit of \$14,076,852 in 1917, he said, represented 20.5 percent on the capital stock.

Bittner pointed to the Lehigh Valley Coal Co. as another whose net profits increased enormously from 1914 to 1918. In 1914, he said, they were \$511,446 and in 1918, \$3,850,189.

Regardless of all increase, he said, minor labor was receiving today fewer cents out of every dollar paid to operators for coal than they got in 1913 and 1914.

PROFESSORS' STOVES GO UNDER FIRE BAN

GREEN BAY, Wis.—The high cost of being sick took a new jump Wednesday with the announcement by Green Bay physicians of an increase in rates. Day calls are to be increased from \$2 to \$3 and night calls from \$4 to \$5.

One of the chief reasons for the selection of San Francisco as the location of the Seventh Annual Foreign Trade Convention of the National Foreign Trade Council and of the Democratic National convention, was the facility offered by the Civic or Exposition auditorium in seating capacity. This huge structure, built at a cost of one million dollars, is located at the San Francisco Civic Center and is shown to the left of the accompanying picture. It has a net seating capacity of 10,500 but on the occasion of the visit to San Francisco of President Wilson the auditorium accommodated 18,000 people.

At the right of the picture is shown the four million dollar city hall, generally regarded as one of the greatest examples of municipal architecture in this country.

I. C. U. WINS IN COURT BATTLE

Special Verdict Returned Wednesday Afternoon in Racine Court

(By the Associated Press) RACINE—That the defendant in view of his intelligence and experience in the exercise of ordinary care, ought to have known the falsity of representations of the Industrial Cooperative union to fulfill its representations by Jan. 1, 1917, before signing stock subscription and promissory notes was the decision rendered by a jury in circuit court Wednesday afternoon in favor of the plaintiff in the case of the Industrial Cooperative union against E. E. Lewis and others.

The decision was rendered under a special verdict in which the jury determined that the plaintiff was not an established corporation doing business in Milwaukee; that the plaintiff did not own a large warehouse in Milwaukee which it used for storing and handling produce; that the plaintiff would purchase all the milk produced by the defendant on his farm, that the plaintiff would make special arrangements to transport the milk of the defendant and other farmers in his vicinity to its place of business in Milwaukee by January 1, 1917; that the plaintiff would notify the defendant as soon as it was ready to receive milk; that the plaintiff would purchase all the produce raised on the defendant's farm; and that the plaintiff would supply and merchandise to the defendant at less than the market price.

PROF. M. V. O'SHEA WILL BE EDITOR OF BOOK SERIES

20 Volumes to Give Results of All Important Experimental Work in Education

The Macmillan Publishing company of New York will publish under the editorship of Prof. M. V. O'Shea a series of 20 volumes presenting the results of experimental work in education. The publication will extend over a considerable period.

The plan is to include in the series all experimental work of importance that has been done anywhere in the investigation of any of the problems connected with the work of education. The authors are all at work now upon the volumes assigned to them.

Two volumes have been published, one by Professor Freedland, of the University of Washington, and another by President Hill, of the University of New Mexico.

Professor O'Shea also is editor of a series of childhood and youth of which 13 volumes already have been published. The purpose of this series is to present what has been accomplished in the investigation of mental development. The series will include volumes on every aspect of the development of the individual from the earliest years to maturity.

Denies Farmers Want U. S. to Control R. R.

COLUMBUS, O.—Stout denial that farmers of the country are in favor of the government retaining control of the railroads was made here Wednesday by Oscar E. Bradfute, president of the Ohio Farm Bureau federation in an address to farmers at Ohio State university. Mr. Bradfute was a member of President Wilson's first industrial conference.

HAYS APPOINTS LENROOT, ESCH AND YOUNG

Republican Chairman Names Body on Policies and Platform

(By the Associated Press) SAN FRANCISCO, Cal.—Will H. Hays, chairman of the republican national committee, made public here his appointments to the advisory committee on policies and platform, consisting of 171 members, 19 of whom are women. This committee includes 12 members of the republican national committee whose appointment had been announced previously by Mr. Hays.

The following have accepted service: Governor Henry Allen, Kan.; Henry W. Anderson, Va.; Congressman Sydney Anderson, Minn.; W. E. Ayer, Oregon; Mrs. Rupert Asstun, Mass.; Milo Campbell, Mich.; Senator Albert B. Cummins, Iowa; Congressman John J. Esch, Wis.; Congressman James W. Good, Iowa; Senator Irene L. Lenroot, Wis.; Henry C. Wallace, Iowa; Mrs. Theodore Young, Wis.

"The purpose of this committee," Mr. Hays said, "is to invite the advice and co-operation of the ablest men and women from all groups, sections, industries, business, professions and interests in the nation; to gather pertinent facts and data; to study intelligently the larger problems confronting us and to offer the result of their efforts and suggestions to the resolutions committee."

This committee will itself be a working body," he added, "and will suggest the line of thought and investigations for a great many others. Many of the committee members will give their entire time to the effort. These giving a substantial amount of time will constitute an executive committee of which Ogden L. Mills, Jr., of New York city will be chairman and John C. Calhoun, of Washington, D. C., secretary. The organization for the committee activity will be enlarged and additional members designated as the scope of the work broadens."

Mine Panic Follows Sudden Fan Stopping

MARIANNA, Pa.—Panic prevailed in the mine of the Union Coal and Coke Co. here late Wednesday night when the fan suddenly ceased to operate and in the rush for the airshaft one miner was hurt. Smoke from the mine caused the report that the working were on fire and ten men had been trapped. Officers of the company declared there was no fire and that the 40 men in the mine had all made their way to safety.

MENORAH SOCIETY TO HEAR KENNEDY

To Share Loss

Eastern Firm and Its Workers Agree to Share Both Profits and Loss.

(By the Associated Press) WAKEFIELD, Mass.—A plan contemplating an equal division of net profits or net losses between the company and its 1,200 employees and containing provisions by which the workers may take over control of the business was announced Wednesday by Winslow, Boit, and Co., owners of the Harvard Knitting mills.

In a profitable year the company will credit 50 percent of the net profits to employees.

In a year of unprofitable operations the deficit will be shared equally between proprietors and employees.

PLAN PROGRAM ON LIVESTOCK FEB. 3 TO 12

Committees From Saddle and Sirlin Club Will Help Stage Events

Student committees have been selected from among members of the Wisconsin Saddle and Sirlin club, organization of Agricultural students interested in the livestock industry, to aid in staging parts of the program in the Farmers' Course, the session to be held Feb. 3 to 12.

Red letter days in the "Keep down the cost of production" program of the farmers have been selected on which all members of the club will attend, and student committees will aid in staging the conferences and sessions.

On Feb. 3, Wayne Dinsmore, secretary of the Percheron Society of America, will defend the horse in the ever present debate, "The Farm Power Plant."

On Feb. 6, high school stock judging contests at the Stock Pavilion. High schools from all sections of the state will enter teams in this round-up.

The annual honorary recognition of two farmers who have succeeded in live stock production will be held at the auditorium, Agricultural hall, in the evening of Feb. 10.

February 11 is the big live stock day. In the forenoon G. E. Wentworth, superintendent of Horse Market, Union Stock Yards, will sound a note of needed warning in his address on the "Draft Horse Outlook." At 10 a. m. Hon. Duncan Marshall, member of Canada's Parliament, Minister of Agriculture for Alberta, and one of America's most enthusiastic stockmen, talks on "America's Live Stock Opportunity." In the afternoon W. J. Carmichael, secretary of the National Swine Growers' Association, leads a discussion with his views on the future of the hog. He will be supported by Morrison and Scott and several important Wisconsin breeders. In the evening is the Farmers' and Stockmen's banquet at the City Y. M. C. with snappy speeches by many of Wisconsin's foremost stockmen and entertainment by Wallace Bruce Ambery, a nationally known platform man.

Wisconsin shepherds are awakening to the possibility of the collective marketing of wool and a plan for putting this over will be adopted at the shepherds' conference to be held in the auditorium on Feb. 12. A conference of the secretaries of all of Wisconsin's community breeders' associations will be held. Officers of the saddle and sirlin club are H. L. Carter, president; G. C. Marshall, vice-president; R. W. Allen, secretary and L. M. Billetteck, treasurer.

THREE ARTISTS HAVE EXHIBITION AT ART MUSEUM

Collection of Rare Copper Indian Implements Also is on Display

Figure pastel drawings by Max Wieszczyk, fine etchings by Ernest D. Roth, and beautiful landscapes by Edward C. Volker, together with rare copper Indian implements make up the special exhibit now being shown in the north gallery of the Art museum of the Historical library.

The work of the three artists is particularly well adapted for a combined exhibit, as it does, particularly fine technique in three distinct types of art. The life like pastel portraits of Max Wieszczyk have attracted a great deal of attention in artistic circles lately and are particularly strange in naturalness of expression and attitude. Among the best is a portrait of Ted Shawn, the famous dancer, which is said to be an excellent likeness.

The three painters are all of American birth, although Ernest Roth has spent much time abroad and many of his best etchings are of scenes in Florence, Venice, and Rome. The rustic peacefulness of Edward C. Volker's herds of cows, sheep beneath the trees or grazing quietly in the sunny meadows, makes the country-bred person long for vacation days and the old farm. The pictures are part of a circulating exhibit brought here by the Madison Art association.

The copper implements which form the other part of the exhibit are part of the collection of more than 2,600 rare pieces of copper, flint and stone implements of native Wisconsin Indians, which was a recent bequest to the Museum by the late Henry P. Hamilton of Two Rivers. This donation was one of the greatest single collections ever received by the museum and is particularly valuable because of its completeness.

Eau Claire to Have One-Man Street Cars

The following regulations on the use of one-man cars have been prescribed by the railroad commission for the Wisconsin-Minnesota Light and Power Co., which was permitted to use the cars in Eau Claire:

Provision shall be made on all one-man cars for the convenient opening of the rear doors by passengers in case of emergency; all one-man cars shall be equipped with hand brakes, to be kept in proper operating condition.

ORPHEUM. Dave Ferguson, who has for several seasons been identified with Broadway productions including "Very Good Eddie" and "The Kiss Burglar" will make his appearance at the Orpheum this evening, when he will appear with his company, in the comedy, "A Rounder of Old Broadway." Claude and Marion Cleveland are to offer their original act, which is billed as "Still Arguing." Those Girls of Attitude, an astral altitudinous exhibition that provides several thrills, will be seen. Others to contribute are: Chamberlain and Earle, serving a vaudeville menu; and Frank and Clare Latour, in funny capers. Kinograms, will be the opening number on the program. The customary Friday matinee performance will be given tomorrow afternoon.

MABEL NORMAND COMING. For the three days starting next Sunday the Fuller will have for its picture offering Mabel Normand in her latest picture "Jinx." A comedy drama, with plenty of action, love and thrills, circus life and scenes are a big feature of this production.

GRAND. Fifty-two degrees below zero on a dog sled race across tracks wastes of snow and ice. This is a terrible situation for a girl. And it was especially serious in this particular instance. For there was another sledge racing along a few miles behind.

The second sledge contained a renegade sea captain who is pursuing her.

Things looked perilous for the girl when suddenly a dark form loomed up beside her. It was the Great Dane, the savage brute kept chained by its brutal master.

This girl, however, had been brought up in the wilds and a great love for all animals. Only a few days before she had been the only human being to ever venture close enough to caress "Wapi, the Killer." And Wapi had just broken his chains when he found that this girl was in trouble.

He was not there to harm her. He wanted to save her from her pursuer. She pointed back and cried, "See 'em, Wapi!" and the Great Dane did the rest. He raced back and bravely tackled the entire dog team of the villainous pursuer.

Lions, lynx, wildcats, bears, etc., are prominently pictured in the great James Oliver Curwood story appearing at the Grand.

TRAVELING MAN PRAISES TANLAC FEELS FINE, NOW

Had Spent Hundreds Seeking
Relief But Nothing Else
Ever Helped Him

"After paying out hundreds of dollars without getting any relief from troubles, my improvement since I started taking Tanlac seems almost too good to be true," said Joseph Peter Selenske, 1298 Twelfth street, Milwaukee, Wis., a well known traveling salesman, representing Froedtert Malt Products Company, of Milwaukee, while telling of his experience with Tanlac, recently.

"For the past eight years," continued Mr. Selenske, "I had suffered with stomach trouble. I had no appetite, and even when I did manage to force down a little something it did not taste good or natural, would sour and I would bloat up badly with gas. The gas pressed against my heart until it pained me almost fully and I would have sharp shooting pains around it. I also would become badly nauseated after eating and have intense cramping pains in my stomach. In fact, I had these pains practically all the time. I also had great difficulty in breathing and at times would just have to fight for breath. I could get but little sleep, lots of nights not being able to sleep a wink, and would always get up in the mornings with an awful bad taste in my mouth and hardly able to move. I would also feel badly nauseated and be so dizzy it was all I could do to keep from falling. My kidneys bothered me a great deal, too, and I had a dull, aching pain across the small of my back all the time, which was so bad I could scarcely bend over, and if I did it was all I could do to straighten up again."

"This was my condition when I started taking Tanlac, but I had taken only a small amount when I began to get better. Well, sir, I continued taking it until now I have a splendid appetite and can eat anything I want and everything agrees with me perfectly, and all my stomach troubles are gone. I am entirely rid of those intense cramping pains and the pain in my back is a thing of the past. I sleep well and always get up feeling fine. I have gained in weight and feel so strong and good all the time I am simply not like the same man I was before taking Tanlac."

Tanlac is sold in Madison by Luckey Pharmacies, in Deerfield by W. A. Perkins, in Middleton by Dr. A. M. Teckham, in Stoughton by O. N. Falk & Son, in Sun Prairie by W. L. Schultz.—Adv.

Stomach Ulcer Gone Suffered 16 Years

Says his stomach is perfect
now and his weight has
increased.

"I had ulcers of the stomach so bad that I was sent to the hospital. Treatment there finally got me on my feet, but in a few days I was down again. You said you wouldn't guarantee Milks Emulsion to cure a bad case of ulcers of the stomach, but I tried it anyway. If it does work for others as it did for me, you ought not to be backward about any case of stomach ulcers. I have now taken twelve bottles and my stomach is in perfect condition. I feel better and weigh more than I have for years, and I have had stomach trouble all of that time."

L. S. Walker, Greenleaf, Kan. Thousands of people who have suffered agony from chronic stomach trouble in its worst forms, have been promptly relieved and restored to perfect health by Milks Emulsion. A trial will show, and a trial costs nothing.

Milks Emulsion is a pleasant, nutritious food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in restoring and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children. No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere. Guaranteed by the Lucky Pharmacies.—Adv.

RUSSIANS IRATE OVER KOLCHAK SURRENDERING

Order Was Given by Gen.
Janis; Other Generals
Seek Janis' Death

(By the Associated Press)

LONDON—Admiral Kolchak's surrender to Siberian revolutionists was authorized by Gen. Janin of the Czechoslovak army, who was placed in command of all allied troops west of Irkutsk on Jan. 19 by Kolchak, says a Harbin dispatch to the Daily Mail.

A sensation was caused throughout the far east by the report that Kolchak had given up, says the message, and one Russian general has challenged Gen. Janin to a duel. Officers under Gen. Semenov have formed a league, the slogan of which is "Have Janis' blood."

It is known that Czech reports on the situation at Irkutsk, which had been telegraphed to Gen. Janin, induced him to consent to Kolchak's surrender. The Czechs claim the choice lay between surrendering one man and a conflict in which they were likely to be annihilated. Japanese representatives asked the Czechs to hand Kolchak over to the Japanese but this request was refused. Later the revolutionists rejected a similar demand and said he would not be turned over until he had been tried by a courtmartial.

BEST POSSIBLE
UPKEEPING OF
ROADS IS URGED

A. R. Hirst Tells Good
Roads Men of State's Main-
tenance Problems

"They shall pass," is the slogan
for Wisconsin," said A. R. Hirst,
state highway engineer, addressing
the highway commission's road
school at the assembly chamber of
the capitol Thursday afternoon. In
his talk on "Let's Go—Forward,"
Mr. Hirst told of the difficulties
that will be experienced in carry-
ing out the program. He had pre-
viously pointed out that because of
present prices, some of the con-
struction that had been planned for
this season must be curtailed.

"The commission will not bid
against Wisconsin industries," he
said, "by cutting its road program," he
said. "We will pay going wages in
the neighborhood. A road must
economically justify itself. We
must insist on the best possible
maintenance."

Thursday was "Maintenance Day,"
opening with J. E. Donaghey's
talk on "The Maintenance Program
for 1920." He began with a review
of 1919 maintenance, quoting from
reports of engineers which classified
road maintenance in 27 counties as
excellent, 25 counties, good, and 15
counties, fair, with none in the poor
category, showing a decided improve-
ment over 1918. He emphasized
the need of a superintendent of patrol
sections. The county highway com-
missioner usually is responsible for
the grade of road maintenance, he
said.

Special points in maintenance of
earth, gravel, and concrete road
maintenance were discussed from
a practical view point by S. P. Hall,
O. C. Rollman, and W. M. Conway.
Mr. Hall was ill and his paper was
read for him. Since 60 to 75 per
cent of the roads will continue to be
earth roads, their maintenance is
an important problem, said Mr.
Hall. The emphasis on the need for
repaving every two or three years.

The road of accurate
maintenance records was empha-
sized by H. D. Blake at the after-
noon session. J. H. Gunnison de-
scribed tools and machinery for
maintenance of earth and gravel
roads. Because of the high cost,
snow removal from winter roads
can only be done where the traffic
will justify the expenses, according
to F. M. Baisley. W. O. Thomas,
Racine, and W. F. Cavanaugh, Mil-
waukee, described their methods of
snow removal.

Frank Cannon will preside at the
annual dinner of the County High-
way Commissioners' association,
that will feature the evening. More
than 200 road men will attend.

"The History of Fire Arms," was
related by J. G. D. Mack, state chief
engineer, Wednesday evening. He il-
lustrated with examples from his own
collection. John A. Hazelwood gave
an illustrated lecture on "Rural
Planning." While the excellence of
Wisconsin roads testifies to the
quality of the men in charge as
county highway commissioners,
they are receiving the pay of day
laborers, without any raise for the
increases in living costs, for their
work, said Frank Cannon. "The la-
borer is worthy of his hire" was
his subject.

GLASS REDUCES
PROPOSED LOAN

(By the Associated Press)
WASHINGTON—Reduction of
\$25,000,000 in the \$150,000,000 loan
proposed for relief in Poland, Aus-
tria and Armenia was made Thurs-
day by Secy. Glass, appearing be-
fore the house ways and means com-
mittee. He said the reduction had
been decided on in conference with
Herbert Hoover, who was quoted as
saying that the loan or "gift" of
\$50,000,000, as suggested in com-
mittee, would do "more harm than
good."

"Fifty million dollars would not
relieve the situation and revolution
might occur," said the secretary.
"One cannot describe the need of
immediate relief," declared Secy.
Glass, reciting conditions told by
American officials just back from
Europe. "This relief is the human-
itarian and safe thing to do, even if
we don't get the money back. But
it is the least expensive thing to do."
Men and women, and especially
children, are dying by the thousands
because they have returned, said
27 bodies lying unburied in a street in
an Austrian city.

MARKET HEADS OF
STATES ORGANIZE

NEW YORK—A national organi-
zation of state market officials to
coordinate government food market-
ing activities in all states and bring
about improvement of distribution
conditions, is expected to result
from a three-day conference of state
market officials which will be held
here Feb. 5, 6, and 7, it was an-
nounced Thursday by Dr. Eugene H.
Porter, state commissioner of foods
and markets.
More than 30 states have estab-
lished market bureaus and at least
two thirds of these will be repre-
sented.

BRIDE OF FAMOUS BELGIAN PLAYWRIGHT IS
MAKING MANY FRIENDS DURING U. S. VISIT

Mlle. Maurice Maeterlinck's most recent picture.
The young wife of Maurice Maeterlinck, famous Belgian playwright
now in this country, is making many friends because of her dainty
manner and delightful personality. Maeterlinck himself is finding the way very
rough. The lecture tour arranged in advance for him, has been cancelled.
Maeterlinck has addressed several social gatherings, and is contemplating
a tour of his own choosing.

TITTEMORE'S
RAIL STAND
LABOR TARGET

(Continued from Page 1)

sition on the Esch and Cummins
bills.
It is known that Mr. Marsh is
aware of the existence of a letter
which Mr. Tittlemore wrote to
Washington several months ago fa-
voring the Cummins bill. The Cum-
mins bill is particularly obnoxious
to labor because of the anti-strike
feature. And this is where labor
is desirous of having an under-
standing with Mr. Tittlemore. La-
bor wants to know if Tittlemore is
really sincere in his talk about join-
ing the farmer and the laborer
while at the same time favoring the
Cummins bill.

In this connection some further
information has come to the know-
ledge of these labor leaders with
respect to Mr. Tittlemore's position.
Several months ago a meeting of
the board of directors of the Na-
tional Society of Equity was being
held. J. N. Tittlemore was present.
During the meeting he was called
to the long distance phone. Upon
his return to the meeting Mr. Tit-
temore stated that Mr. Earling
(former president of the St. Paul
road) wanted him to go to Des
Moines to see Senator Cummins. It
was after this that Tittlemore sent
a letter to Washington endorsing
the Cummins bill.

Labor leaders, in view of these
developments, now propose to find
out whether there is any sincere
desire among the present Equity
officers to work with labor as a
matter of principle, or whether the
Equity attitude is purely one of
politics.

Ask a Showdown.
"We are going to demand a
showdown," said one labor leader.
"Mr. Tittlemore and his followers
cannot be aiding the Wash street
game by endorsing the notorious
Cummins bill and by taking the side
of the Earlings and the Bloodgoods
and at the same time make a cheap
political play in behalf of labor.
Those two propositions will not
mix. Tittlemore and his followers
will have to get on either one side
or the other."

GERMANS WOULD

Shot at Erzberger Called
Indication of Extradition
Policy's Results

(By the Associated Press)
BERLIN—Indication of the gov-
ernment's growing concern over the
extradition of Germans accused of
war offenses was given in the note
sent to the allies Thursday asking
revision of clauses of the Versailles
treaty.
The attempted assassination of
Martha Erzberger, minister of fi-
nance last Monday, is viewed in of-
ficial circles as a precursor of what
is likely to happen on a larger
scale if the government, yielding to
the allies, appeals to force in ar-
resting men on the list submitted
by the entente powers. Editorial
and partisan recriminations, pro-
voked by the attack on the finance
minister, have already reached the
white hot stage.

The note to the allies, which will
not be published in Germany, warns
the entente powers that Germany
cannot compel either national or lo-
cal agencies of the law to lay hands
on the men wanted and transfer
them to German frontiers.
The Associated Press is informed
that even responsible officials of the
foreign office have announced they
will refuse to execute any work
connected with extradition formalities.

Suggestion is made in the note
that the men wanted be tried by the
supreme court at Leipzig and the
cabinet has indicated its belief that
the nation's highest tribunal can
guarantee an exhaustive and impar-
tial trial. It is pointed out that the
allies are given representation on the
bench of the supreme court, which
should further guarantee a fair trial.

The economic situation in Ger-
many is precarious at present and
this is an unsuitable time to invite
trouble, the note indicates, contin-
uing to point out that trouble, if it
comes, will not be confined to any
single party.
It is stated that no list of men
whose extradition will be demanded
has yet been received.

It is the general opinion that the dollar has lost much of its former purchasing power during these days of higher costs. As a general thing that is true, but for this one day, Friday, your dollar has a chance to expand to normal size. The merchandise in this sale is from regular stock, sort of a house cleaning for us, but for you it is a genuine savings opportunity. The values are so very exceptional that we suggest shopping early in the day. The store opens at 8:30 a. m.

: - : SOCIETY : - :

Announcement is made of the marriage of Miss Florence Caroline Zeidler, daughter of Mr. and Mrs. Edward C. Zeidler, of Rockford, formerly of this city, to J. Harold Cullen of New Richmond. The wedding took place Jan. 27 at the home of the bride in Rockford.

Miss Zeidler was born in Madison and is a graduate of the Madison high school and domestic science department of the Stout Institute at Menomonie. She was supervisor of the domestic science department at the New Richmond high school for two years.

Mr. and Mrs. Cullen will be at home after Feb. 17 in New Richmond where Mr. Cullen is engaged in the furniture and undertaking business.

The Capitol Mutual club mock prom given last night, proved most successful. After the grand march led by Miss Minnie Wilson, queen, and Herbert E. Whipple, supper was served in the Capitol cafe. Dancing was then resumed until midnight. In the receiving line were R. W. Smith, Walter Wellman, Charles E. Mullen, Karl Kurlenacher, Charles Thompson, Clarence M. Sommers and Alford Johnson. Miss Reba Hayden gave a whistling solo and Miss Beatrice Colquitt entertained with song selections.

GO HEAL THE SICK

This Man Is Leading Sick People Back to Health

His Fight Against Old Age, Weakness and Disease

Five years ago H. H. Von Schlick, of 305 Penn avenue, Pittsburg, Pa. was unknown. Today hundreds of thousands bless and praise him as a benefactor. They are grateful for new health and freedom from sickness and disease. Mr. Von Schlick is now in the winter of life. He has ruddy cheeks, bright sparkling eyes and the snap and vigor of youth. Twenty years ago he was down and out, physically. Then Von Schlick met Boris Marokoff, an old Bulgarian friend, who gave him a Herb Tea. Von Schlick recovered his health. He was a new man in mind and body. This Bulgarian Blood Tea was a great medicinal discovery for healing the sick. Von Schlick obtained the secret formula and process for making this Bulgarian Blood Tea. The roots, barks, leaves, herbs, berries and flowers grow in forests, fields, valleys and swamps and come from Europe, Asia, and Africa. The wonderful power in this Herb Tea regenerates the system, cleanses and tones the blood, stimulates the liver, freshens and strengthens the kidneys, sweetens the bowels and stomach and gives one back the snap and vigor that only a healthy person can have. For years Von Schlick made this Tea and gave it to sick people. It helped everyone. The name of this medicine began to travel; people came to him for it and he gave it free—until it hurt—because he was a poor man and could not afford it. Then people told him to make it for the whole world to use and today he believes he is doing more good for suffering humanity with Bulgarian Blood Tea than any other medicine in the world.

Bulgarian Blood Tea today is used the world over and praised by millions of sufferers fighting disease and warding off old age weaknesses. They include happy girls budding into womanhood or women crossing precarious thresholds of life. All praise and recommend it. Men regain their strength and vitality, the blood becomes rich and pure and the snap and sparkle of good health returns to those who were in despair. Just ask your druggist today for a trial package of Bulgarian Blood Tea and you will never regret the time you spent in reading this item.—Adv.

OBITUARY

MRS. JOHN STEPHAN

F. A. Stephan, Sherman ave., received word Wednesday of the death of his mother Mrs. John Stephan at Jefferson. She was 83 years old and had lived continuously for the past 72 years at the home in Jefferson. Besides her husband she is survived by two sons, F. A. Stephan of Madison and William Aekerman of Milwaukee and two daughters, Mrs. E. T. Higgins of this city and Mrs. A. A. Pebble of Elgin, Ill.

The funeral will be held from the home at Jefferson Friday afternoon.

FRED PFAHLER

The body of Fred Pfahler, brother of the late Albert Pfahler of Madison, arrived here today from Prairie du Chien. Funeral services will be held at 2:30 o'clock Friday morning from the home of Mrs. A. Pfahler, 602 W. Dayton st., and at 9 o'clock from St. Raphael's church, Father Johnson officiating. Interment to be at Calvary.

OLD MEN AND OLD WOMEN ARE MAKING GOOD

Hundreds of men and women well along in years have taken a most remarkable new lease on life; are up and doing more than their share of work and enjoying it, not asking favors of anyone.

There is no secret about this. Every man and woman past the prime of life can come back strong, look young, and feel young, in a short time, if they will just follow the laws of nature.

Old people THINK they are worn out because of age, and they feel that way. This is all wrong. One of our leading doctors says that looking old and feeling old is due to lack of iron and phosphates in the blood and nerves. When people are young, they have a good supply. As they grow older and draw on this supply, they come to feel run down unless they are wise enough to re-charge their blood and nerves with Phosphated Iron.

Continuing the doctor said, "Every man and woman older in years can be made strong, keen, healthy and alert, enjoying life's pleasures again if they will simply renew their blood with Iron and Phosphates."

Phosphated Iron makes new, red blood, strengthens the nerves, rebuilds energy, renews endurance and often increases the strength of weak or old people one hundred per cent in 2 weeks time. Thousands of run-down old people who were failing all the while have surprised their friends with a most astonishing return of health, strength and vitality simply by taking Phosphated Iron. Phosphated Iron is put up in capsules, only, don't take inferior pills or tablets. For sale by

APPRENTICING PLAN ADOPTED BY JEWELERS

Sheet Metal Workers and Employers Also Come to Like Agreement

Agreements providing for uniform terms of apprenticeship in the sheet metal working and jewelry industries were announced Thursday by the industrial commission. These agreements have been drafted by employers and employees in these industries the members of which were selected by the employers' association and the employees' organizations in these trades.

The uniform contract for the sheet metal working industry provides for an apprenticeship of 4 years, each year to consist of 2,200 hours of work. Of this, the apprentice is required to spend 8 hours a week in the vocational school, and for such school attendance is to receive the same rate of pay as in the shop. The agreement also specifies in detail the processes which shall be taught to apprentices in this trade, and provides for a diploma to be issued by the industrial commission on the satisfactory completion of the apprenticeship. The commission states that the wages which will probably be paid in this trade to apprentices range from 25c an hour during the first half year to 45c an hour in the last half year of the apprenticeship term. The uniform contract also provides that a bonus of \$100 shall be paid to the apprentice on the completion of his contract.

In the jewelry trade, also, the term of apprenticeship is to be 4 years, each year to consist of 50 weeks of work. The processes to be taught the apprentice each year are definitely specified, with a view toward giving all around training for the watch-making and jewelry trades.

Wisconsin is the only state in the Union with a state system of apprenticeship. There are now over 1,000 legally indentured apprentices in this state. Hitherto, most apprentices have been in the machine trade. Recently, however, the industrial commission has been successful in securing agreements between employers and employees upon the standards to govern apprenticeship contracts in the plumbing and electrical trades, and now for the sheet metal working and jewelry trades. Hitherto, there has not been a single watch maker's apprentice in the state, and comparatively few sheet metal work apprentices. With the conclusion of the uniform agreements for these trades, the commission expects that rapid progress will be made toward the development of competent mechanics in these lines.

GUERNSEY SALE HERE ON FEB. 13

First All-State Sale to be History Maker, is Prediction

Another chapter will be added to Wisconsin dairy history on Feb. 13 when the first all-state Guernsey sale will be held in Madison. To make this sale a history maker a committee of 7 of Wisconsin's leading breeders have inspected the best herds of the state and selected 75 of the very choicest Guernsey as consignments to the first public offering presented by the Western Guernsey Breeders' Association. The committee in charge of the event consists of H. W. Griswold, of La Crosse County, W. W. Kinyon, of Eau Claire County, H. A. Main of Jefferson County, B. F. Sheridan of Fond Du Lac County, Chas. A. Wilkins of Grant County and W. A. Munn of Rock County, with Frank E. Fox of Waukesha County acting as secretary. The annual meeting of the Guernsey men will be held here on Feb. 12, as one of the features of the stockmen's conferences. Robert Scoville of New York city and president of the American Guernsey Cattle club will be one of the speakers.

News Notes of the College World

Japan has a system of universal education which enrolls over 98 per cent of the children of school age. Her schools and colleges enroll thousands from Korea, China, India and the Philippines. There are 30,000 students of college grade in Tokyo alone. And for years, the foreign schools have been unable to accommodate more than two-thirds of the applicants for admission.

Out of 63 colleges on one list, 22 have endowment campaigns on, and several others are waiting a later day. The total asked by the 22 is \$100,000,000.

Exactly 23 per cent of the graduates of the four leading universities of Japan are directly in government service. And this does not include teachers in government schools.

An increase this year of less than 2 per cent in enrollment in nine strictly women's colleges, but a gain of 23 per cent in women enrolled in co-educational institutions is shown by a Boston Transcript writer. Smith college with 1,998 students is the largest women's college in the world, with Wellesley and Simmons second and third. But the

NEW SERVICE STATION HERE COSTS \$100,000

Schlimgen Property Bought by A. X. Merz, F. E. Coleman and R. J. Nickles

Thomas E. Coleman, Robert J. Nickles and Arthur X. Merz have purchased the Fred M. Schlimgen property at W. Main and S. Fairchild sts., the deal being closed for \$250,000, according to an announcement Wednesday. With this purchase comes the second big building prospect.

Articles of incorporation were filed by the new members of the Automotive Electric Service Co., with a capitalization of \$200,000 and plans for raising the present building and erection of a four-story structure to cost some \$100,000, were announced.

That options have been let on the property located in the triangle south of the alley formed by S. Fairchild and S. Hamilton sts., and that a modern apartment house, similar in structure to the Baskerville apartments on the south side of Hamilton st. is to be erected soon are current rumors. The third project is the building of a new Park hotel at an estimated cost of upwards of \$1,000,000.

"We intend to enlarge the scope of the business field to take in the entire state and we expect to have one of the finest and best equipped buildings in this section of the country," said Mr. Nickles, Wednesday.

The razing of the present structures may be completed before the end of the year. At the first board meeting yesterday, Arthur X. Merz, president of the Security State bank and secretary of the Madison Kipp Co., was elected president of the company, Thomas E. Coleman, vice president of the same bank and of the Madison Kipp Co., was elected vice president, and R. J. Nickles, present manager of the station, secretary-treasurer. Mr. Nickles will continue his duties as general manager.

It is proposed to have the service office, battery testing laboratory and filling station on the first floor, using the second for the executive offices and the starting, lighting and ignition department.

Three incorporations and one dissolution were also filed, including the new service concern. C. H. Sanderson & Co. was incorporated at \$10,000 for a real and personal property business, by C. H. Sanderson, Carl J. Marsh and Theodore C. Lewis. Articles were filed for Kessenich's Incorporated, with capital for \$150,000, incorporators being Frank Kessenich, Frank J. Kessenich and Harry E. Kessenich.

The Alpha Gamma Rho Building corporation of this city, formed in 1917, a non-stock concern, was dissolved. Other incorporations were Badger Mirror Co., Milwaukee, \$100,000; Productive Patents Co., Milwaukee, \$25,000; Home Knitting Mills, Marinette, \$20,000.

WOMEN'S PRESS MEETING HERE

Wisconsin Chapter of Theta Sigma Phi Plans to Welcome Visitors

The University of Wisconsin has been chosen as the meeting place of the national convention of Theta Sigma Phi, honorary women's journalistic fraternity, April 29, 30 and May 1. Beta chapter of Wisconsin is to be the hostess chapter at that time.

Announcement Committees Garnet Kleven, as president of the local chapter, will be general chairman of the convention, with Marie Bodden acting as marshal of ceremonies. Committees to carry on the necessary work in preparation for the convention were announced at a meeting held last night.

They are: Entertainment—Ethel Vinje, chairman, Rachel Commons, Adeline Briggs, Lucile Selk.

Correspondence—Mary Converse, chairman, Dorothy Bridge, assistant chairman.

Finance—Lucy Rogers, chairman, Margaret Johnson.

Publicity and Exhibits—Marion Roth, chairman, Alice Edison.

Registration—Esther Van Wageningen, chairman, Beth Stewart, Frances Holmberg.

Has Noted Members Theta Sigma Phi now has 17 national chapters of which Beta is the second oldest. The convention this spring is the second one the organization has held since it was organized in 1912. It is of interest to note that the second Sigma Delta Chi convention also was held in Wisconsin.

Among the honorary members of Beta chapter are: Edna Ferber, Zona Gale, Vina Lindsey, of the Kansas City Post, Harriet Monroe, the late Ella Wheeler Wilcox, and Prof. W. G. Bleyer. Professor Bleyer has the distinction of being the only man who has ever been initiated into Theta Sigma Phi. When the chapter was installed at Wisconsin Professor Bleyer was initiated by the national heads in Washington in order that he might do the installing.

ASKS YOUTH TO BEAR ITS SHARE OF WORLD WORK

Young People Must Assume Responsibilities, Declares Dr. E. A. Hayden

"The human being is the highest expression of spirit and mind in the universe," declared Dr. E. A. Hayden, professor of philosophy at the University of Chicago, who occupies the pulpit of the Unitarian church in Madison, "and to depend upon a supernatural or divine being is to fail in our work in the world."

Dr. Hayden made a strong plea to the young people of the world to assume their responsibility in forming a new world order, an order in which cruelty, suffering, repression, terrible poverty cannot exist; an order which has a cooperative program carried on in the name of man and the human spirit. Youth, with its knowledge of what science can do in the cause of war, must have the faith to believe that science can do even more in the cause of the world ideals for which it hopes; and having faith, youth can accomplish.

There is much to overcome, said Dr. Hayden. The world war has left us a heritage of hatred, the spirit of revenge, intolerance of opinion, and still greater wrongs, fundamental ones, that youth must conquer: injustice, oppression, cruelty. We must realize that there can be no democracy which is vital while inequality of opportunity still exists. Democracy without equality or opportunity has meant years of pain and anguish to men.

With eyes that have vision, minds that are open, and with hearts to love our fellows, we must shoulder the burdens of the world refuse to believe in a divinity that will allow such cruelty in the world and realize that what divinity there is, exists in the human being and to such an extent only as he fights for it makes good and wins. Divinity is the fighting and struggling of the human being for the good. "It is the old, old challenge," said Dr. Hayden, to right the wrong, a consecration to a cause."

Use Reliable Measures Only

Important to Select Only Such Preventatives as Will Really do the Work

To keep well and help prevent sickness disease germs must be destroyed by thorough personal hygiene.

To get effective results use only a proven reliable germicide. The common run of antiseptics do not always have either the necessary germicidal strength or cleansing power to reach and destroy germs of disease. Germs live and multiply largely in albuminous matter: Phlegm, mucus, pus, and matter found in the nostrils and tonsils is albuminous and contains tremendous numbers of germs. It is important that such matter be cleaned out—the germs carried away and such of them as still remain on the membranes be killed. To do such work requires solvent action by the germicide used for a gargle and for spraying the throat and nose.

A pure Sodium Hypochlorite is a most effective solvent of phlegm, mucus—pus etc. It dissolves such matter—without irritation to the membranes. Being a reliable germ killer—a few drops of Sodium Hypochlorite in a glass of water cleanses the tissues thoroughly. This insures that disease germs are reached and destroyed. Without strength and solvent action the value of a gargle or a spray is limited to merely the washing out of such germs as may be washed off the surface of the matter on which they exist. This is of very little value.

A reliable Sodium Hypochlorite of standard manufacture with directions for its use may be had by asking for B. K. (Bacilli Kill) at any drug store. It is manufactured only by—General Laboratories, Madison, Wis.—Adv.

This Tells You How to Get Benefit of the Best Senna

Finest Grade of Egyptian Senna Leaves used in compounding Dr. Caldwell's Syrup Pepsin.

PROMINENT importers and wholesale dealers in crude drugs and medicinal herbs gathered from all parts of the world do not hesitate to say that the market for the better grades of medicinal herbs, roots, oils, etc., is practically confined to the leading manufacturers of the so-called "patent" medicines, who buy only the very best, and that the manufacturers of Dr. Caldwell's Syrup Pepsin are the largest users of the best grade of Egyptian senna leaves in the world.

The potency of a tea brewed from senna leaves to relieve constipation has long been recognized, not only by the medical profession, but by the public generally; in fact, senna has been known and used in medicine for more than two centuries. The cheaper grades of senna, such as are usually sold at retail, have, however, a tendency to gripe and cramp

which makes their use unpopular with most people.

In Dr. Caldwell's Syrup Pepsin the finest Egyptian senna is combined with pepsin and other valuable agents, essential oils and pure cane sugar syrup to make an exceptionally valuable tonic-laxative for the relief of constipation and resulting disturbances of the stomach and bowels. The complete formula is plainly printed in English, French, and Spanish on every package. Thousands who formerly bought an inferior grade of senna leaves now use Dr. Caldwell's Syrup Pepsin instead. It is sold in drug stores everywhere.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest-selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have never used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monticello, Illinois.

C. WESLEY TRAVERS
C. Wesley Travers, Port Washington, a junior in the course in commerce, is chairman of the alumni committee for the big dance. His job was to reach all the alumni by personal letters and through school organizations, urging them to return for the event. Travers is editor-in-chief of The 1921 Badger, a member of the student senate, the Y. M. C. A. cabinet, and has been active in class committees. He is a member of Zeta Psi, Skull and Crescent, Ku Klux Klan and White Spades fraternities.

WILLIAM B. FLOREA

William B. Florea, New York City, a junior in the course in commerce, is chairman of the finance committee of Prom. He helped to make up the budget and has to sign all checks for money paid out. With the Prom accountant he sees that all expenditures are legitimate. Florea is associate business manager of The Badger, was on the advertising staff of The Cardinal in his freshman year, a committee chairman of the ice carnival last winter and is chairman of the finance committee of the junior class. He is a member of Beta-Theta Pi and Inner Gate fraternities.

HERBERT STOLTE
Because many Madison persons, faculty members, and students not with organized parties have not had a chance to secure general admission tickets to Prom, the committee in charge is placing 100 of the pastebords, minus the supper checks, on open sale this noon at \$5.50.

The tickets at \$5.50 will include all items with the exception of the supper stub.

Flu Takes Parents of Three Children

OSHKOSH, Wis.—Three small children were made orphans when Harry S. Keefe died Tuesday night of pneumonia. Mrs. Keefe died of the same disease only a few hours previously and a double funeral will be held Thursday. Mr. Keefe was employed by the Langstadt and Meyer Electrical Co. He and Henry W. Meyer both became ill after a trip to Chicago, four deaths here being traced directly to their illness.

Jack Johnson To Return To Face The Courts And Jack Dempsey

JOHNSON AFTER LIMELIGHT IN DEMPSEY DEF

"Lil Ahtah" Plans Return to States and a Fistic Comeback

(By the Associated Press)
MEXICO CITY—Jack Johnson, former heavyweight champion of the world, plans to return to the U. S. at once to face charges pending against him in Chicago, according to a letter shown the Associated Press Wednesday by Johnson. The former champion is confident he can arrange legal difficulties in time to fight Jack Dempsey before the latter meets Georges Carpentier of France and asserts Dempsey must meet him before he can claim the world's championship. The letter shown by him to Charles F. Cline, U. S. district attorney of Chicago.

Johnson asserted that he weighed 213 pounds but would go into training immediately after reaching the U. S. and would be easily able to make his old fighting weight.

Jack Johnson was tried in Chicago early in 1913 on charges of having violated the Mann white slave law and, being convicted, was sentenced to a year's imprisonment in the Federal penitentiary at Leavenworth. Johnson appealed but before the case was argued before the higher court he forfeited his bail bond of \$15,000 by fleeing from his home near Chicago to Montreal.

Late in June 1913 he sailed for Europe and has not been on American soil since that time.

VOCATIONALS WIN 40 TO 16 OVER FLASHERS

Fast Game at H. S. Gym Witnessed by Large Crowd

Displaying brilliant teamwork which usually ended with Cannon dropping the leather through the net, the Vocational school basketball team Wednesday night downed the fast French Battery aggregation, 40 to 16, in a brilliant game at the Madison high school gym.

More than 200 people packed the gym and there was never a moment when the cheering died down.

A feature of the contest was the close guarding of the Vocationals. They had an airtight defense but played so clearly that not a foul was called on them.

DOPE SPILLED WHEN BADGER HIGH TUMBLES

Stoughton Trims Local Gang in Close Contest by 24-27 Score

Referee—Linden, Wisconsin.
Wisconsin high of Madison was treated to a rough surprise at Stoughton Wednesday night, the Stoughton basketball team downing the Blue and White in a close contest, 27 to 24. The result was a complete reversal of the dope, as the Badger high had won seven straight games against formidable opposition, and were touted as possible state champions. Madison high trounced the Stoughton outfit here last week, 16 to 7.

Overconfidence, without doubt, was a great factor in the defeat of the local boys, for they were taken off their feet in the first half by the speed of the Stoughton attack. Wisconsin high rallied strongly, however, and outplayed their opponents in the second period, garnering 16 points to Stoughton's 9, and had the game lasted a few minutes longer, the blue and white, might have conquered.

The second teams of the two schools met in a preliminary game, the Wisconsin high subs winning easily, 20 to 6. The count at half-time was 7 to 2.

744 TEAMS ARE READY FOR PIN MEET OPENING

(By the Associated Press)
MANITOWOC, Wis.—The annual Wisconsin state bowling tournament opens here today, one of the greatest tournaments in the history of the sport.

The 744 teams entered by far surpasses any tournament ever held before in this state. Last year's record of 590 teams was considered a record. Prizes aggregating more than \$13,000, representing the greatest amount ever offered for a state tournament will be given.

Thirty teams, most of them local entries, will start the festivities at the opening of the tournament to-night.

The president of the Aluminum Goods Manufacturing Co. will have the honor of rolling the first ball, as his company has a record entry of 85 teams.

FROSH BEATEN IN TRACK MEET

The Frosh-Varsity track team met yesterday afternoon in the gym annex resulted in an overwhelming defeat for the first year men. The score was 75 to 24.

Return of Star Basketeers Next Semester To Bolster The Faltering Badger Quintet

Players Now Ineligible Will be Ready for Use Then

At last there is a rift in the clouds for followers of the varsity basketball team. Supporters of the Badgers have been obliged to chew a bitter and pessimistic cud of reflection of late, for in addition to losing good men, through injury and ineligibility, the Wisconsin team seemed to be smitten with an unaccountable apathy. The old time drive and fight has been missing from their play, the Iowa catastrophe, being a particularly painful contrast to the aggressive, never say die spirit of a few past seasons.

However, latest advices from the university athletic department, indicate better things are coming for the varsity. It is reported probable that Brumm, the old Madison high school star, will play with the Badgers beginning next semester, now only ten days away. He has been practicing with the squad for some time and, providing he passes next week's exams, should be a tower of strength to Lowman's men. Barlow and Pease, both star guards, are expected to be in shape next semester too, and, best of all, the late fracas with Illinois, though a defeat, gave some evidence of a re-

vival in aggression and pep among the Badgers. The boys carried the fighting right to Illinois and the size of the score against them is an injustice to their prowess in that game.

The varsity plays Minnesota Saturday night in the university gym, and the battle should be a tough one, for both teams are stung by reverses and have blood in their eyes. At this game fans will have a chance to view Arnold Oss of Minnesota in action again. Oss was the fellow who created such a disturbance at Camp Randall last fall.

VARSITY CIRCUS STARTS EARLY

Athletic Board Sponsors Event to be Held on Date of State Meet

Plans are being made early this year for the annual university circus, which promises to be the largest and most complete event of this kind ever attempted. According to Vincent O'Shea, manager of the circus, it will completely surpass any former circus at Wisconsin or any other university circus to be given this year.

"We have the material and possibilities for a real show and the idea is to start early and work up a big program and show the state that Wisconsin can put over a circus

that will be a knockout," said O'Shea.

It is scheduled for May 22, on which date the state championship inter-scholastic athletic meet will be held. The university as a whole will be on exhibition at that time with a view to setting before high school students and the public at large the advantages and possibilities of a career at Wisconsin, especially for men of athletic inclinations.

Announcements will be made in every high school in the state shortly before the advent of the circus and a large crowd of prospective students it is expected will attend. Arrangements have been made with Ringling brothers to furnish all apparatus for the circus such as costumes, tents, trapezes, and athletic equipment. Plans will be in the hands of the Athletic board.

Any one desiring to participate in the production or staging of the circus should notify Allan Spafford on the Union board.

"It was a hard life, but a good life, and a life that built MEN"

THE 14 ARMS OF THE SERVICE

The Recruiting Sergeant can give you the information that will help you decide which branch fits you best. In all of them you will get the fine training as a soldier that the United States offers all its men—in many branches you can get highly specialized training.

INFANTRY—The men who have made the name of "doughboy" feared and respected throughout the world welcome you to the comradeship. Fine fellows—good fun and good training in any school at the post you go to.

CAVALRY—When the horses are clamping at the bit and the "yellow legs" mount up and the troop rides forth, there is a thrill that no old cavalryman can ever forget. A home of your own—a good outdoor life and training for future success.

FIELD ARTILLERY—"Action Front" comes the command—then watch the boys with the red hat cord snap into it. A happy outfit—with the dash and mounted service added to interesting work that calls for head and hand. "Motors if you wish."

CORPS OF ENGINEERS—Army engineering is known the world over for its excellence and an enlistment in the engineers can be the start of a young man's training in the various branches of engineering and in any of the mechanical and building trades.

COAST ARTILLERY—Living on the sea coasts, guarding big cities with big guns, getting time for study and a wide and good technical training, the C. A. C. man is preparing for a useful life and good pay and is having a good time while he's learning. The C. A. C. also mans the mobile big gun regiments throughout the country.

AIR SERVICE (including BALLOON CORPS)—The man who gets the early edge in experience with aeroplanes and balloons has a chance to cash in big on his army training. For flying is only in its infancy and it's going to be a profitable business for men with the right experience.

ORDNANCE DEPT.—The ordnance is appealing to the studious young American. To wide opportunities for study, it adds a business as well as a technical training.

SIGNAL CORPS—Whether it's laying a wire from a reel-cart at a gallop or installing a wireless station that will flash its message half around the world, the Signal Corps is there, and a man who learns radio telegraph and telephone work in the Signal Corps is always valuable.

MEDICAL DEPT.—Good experience, good pay, and training in all branches of hospital work. Excellent opportunity for future success. The Veterinary Corps teaches the care of horses as well as meat and milk inspection.

TANK CORPS—The man who knows gas motors and tractors or who wants to know them is invited to join the Tanks. Radio, machine gun and ordnance work are all parts of the Tank Corps work.

QUARTERMASTER CORPS—The Corps that feeds and clothes the Army offers a valuable training for future business. Interesting work for the man who likes horses in the Remount Service.

CONSTRUCTION DIVISION—Practical work in the many trades is part of the every day life of the Construction Division. Many opportunities to learn the trades of highly paid specialists.

CHEMICAL WARFARE SERVICE—For a man with a little knowledge of chemistry or for any ambitious young man who would like to get that knowledge, there is interesting work and rapid advancement in the C. W. S.

MOTOR TRANSPORT CORPS—A thorough practical training in motors and their accessories, and in driving as well, is given in the well-equipped schools of the Motor Transport Corps.

WHEN I got out of the Army, I raised my right hand over my derby and said, "Never again, I hope!"

And I am here to state that I was just one of about 3,000,000 who felt like that—only stronger.

It was my privilege to kick and believe me, I did. I couldn't get out too quick—I wanted a feather bed, restaurant food and trousers that flapped around my ankles.

But now that I'm out, civil life is not all that we cracked it up to be! And the Army looks like a pretty good place, after all.

I've been and seen and done things that I wouldn't give up my memories of, for anything.

I had a fine crowd of buddies—two-fisted men with a regular man's outlook on life.

I learned how to take care of myself and all corners—to hold my own with the best and with the worst.

And I learned the sort of discipline that makes a man able to handle men.

I got pretty fair clothes—not as good as the Army gives in peace time but warm and plenty of them—and they didn't set me back sixty a suit, either.

Meals—well, did you ever see a hungry looking soldier?

We all kicked then. Some of the rear-rank generals will always kick. You can't please some birds ever.

The Army never was a bed of roses—it was not meant to be. It is a powerful fighting machine. And even right now, with the peacetime lack of hardship, it's still no place for the lad who won't "play ball."

But the man who does his duty, who snaps into the spirit of the game, who stands on his own feet, who plays hard and plays clean—there is the chap who gets along and eats up the Army life.

He learns how to handle men, he rises in rank as fast as he proves himself.

He is entrusted with important and interesting work.

He gets more money clear than he could save in civil life.

He comes out with a better education—he has a real time with a good crowd of regular he-men.

He's seen something and been something and done something for the little old U. S. A.

Where the U. S. Army Serves
American troops are serving in Panama, Hawaii, the Philippines, Alaska, China, Germany, Siberia and here in the U. S. A. The Recruiting Sergeant will gladly give you all the details.

EXTENSION OF ELECTRICITY TO FARMS BOOMING

Demand for Electric Service in Rural Districts Greatly Increased

A greatly increased demand for extension of electric service in rural districts in Wisconsin is the outstanding feature of the electric business in the state during the past year, according to the report of the Wisconsin department of the public utility commission. Mr. Haydon, chief of the commission, expressed the opinion that the demand for extension for the year just will largely exceed that of the year before. A conference called by the commission to consider the question of extensions was attended by representatives of the Wisconsin Electric association and representatives of the Wisconsin Electric association. As a result of the conference, the Wisconsin Electric association will submit a plan to govern rural extensions to the commission for its approval. If the plan is a practicable one, and will properly protect the rights of the farmers applying for the extensions, it will receive the approval of the commission and extensions in the future will be made in compliance with it.

STATE TO HAVE ARMY DIVISIONS

Badgers Enlisting in Army to be Assigned to "Wisconsin's Own" Units

Under a new plan of the war department, authorized after the British system of assigning troops from certain states to units which are known as "units of men from that state," recruits enlisting from Wisconsin will be assigned to one of the following units: 10th, 14th, 47th, 68th, 82nd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th, 101st, COLLEGES, SHOW YOUR COLORS!

SHOW your colors! Where do you stand? Are you a newspaper-American? Do you interpret the American spirit of fair play as the right to brain your political opponent with the bludgeon of manufactured hysteria? Do you believe that you can oppose new ideas with deportation and forceful suppression, or by robbing men of the right to work and live?

Or are you a real American? You believe that the makers of the American constitution meant what they said in the first amendment, "Congress shall make no law abridging the freedom of speech or of the press." You still revere the Americanism of Lincoln, Garrison and Phillips? Wendell Phillips' defiance of oppression still falls gratefully upon your ears: "The community which dares not protect its humblest and most hated member in the free utterance of his opinion, no matter how false or hateful, is a gang of slaves?"

Which kind of American are you, every citizen must decide this year. And every institution.

Beloit College, Beloit, is in the way of making that decision now.

President Melvin A. Brannon has tendered his resignation to his Board of Trustees.

That—in spite of the fact that he piloted the college through two disastrous war years with a money surplus instead of deficit; that—in spite of the fact that attendance at Beloit College increased 33 per cent in two and one-half years under his administration; that—in spite of the fact that he organized a successful summer school; organized extension work to touch yearly 150,000 Wisconsin and Illinois citizens a year; organized the Beloit Chamber of Commerce and served since its establishment as president; organized Wisconsin Colleges Associated. He has tendered his resignation to the Board of Trustees in spite of the fact that the student body has gone on record for the administration, as have twenty-one out of twenty-four of the faculty.

Beloit is a manufacturing town of intense commercial interests. At the last mayoralty election, there was only one candidate for the chief municipal office. He was a manufacturer. At the last state election, there was only one candidate from Beloit for state assemblyman. He was a workman in the leading manufactory. His record during the last session of the legislature reveals his public interest in labor, and his tenderness for his employers. There is but one newspaper in the town. It handles thousands and thousands of dollars worth of commercial printing every year from the big factories. The town is an open-shop town; the word "union" seldom appears in the vocabularies of its citizens except as term of opprobrium.

This year M. H. Hedges, professor of English, at Beloit College published "Iron City," a novel depicting life in college and factory. A. E. Suffer, professor of Economics, openly denounced Garism as a maker of revolutions. C. D. Crawford, professor of Public Speaking, publicly interpreted law and order in the light of Christian justice.

At once howls went up from the pinked burghers of the town. Backed by certain proponents of old-time education on the faculty, certain burghers went to President Brannon and demanded that he "get" the three professors who had been so bold as to interpret Americanism as Americanism, and Christianity as Christianity. President Brannon, report says and facts corroborates, refused. Then they went over his head to the trustees. The trustees, against the advice, it is said, of some of the highest and clearest minds among them, responded nobly.

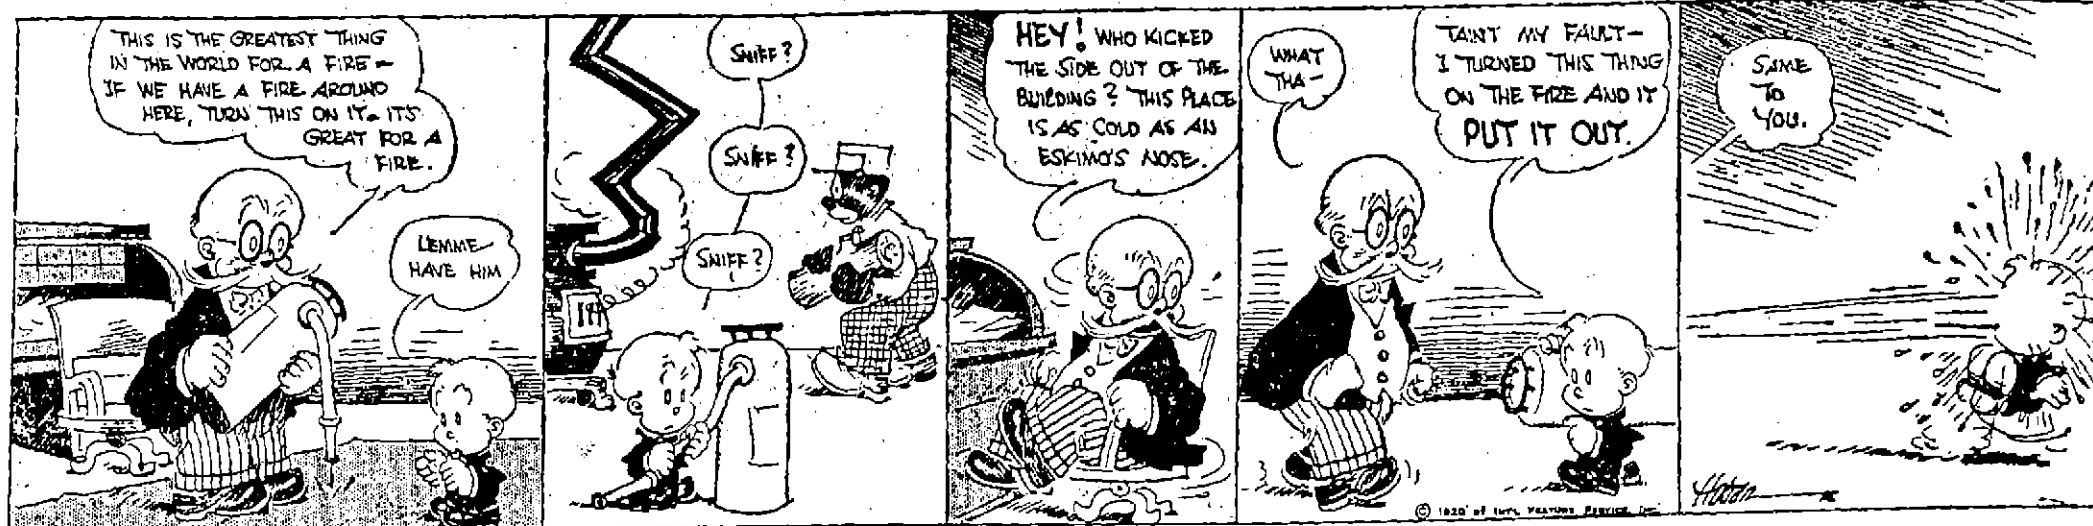

Then President Brannon tendered his resignation. He tendered his resignation in spite of the fact that he is considered even by the burghers themselves to be one of the three or four best college administrators in the country.

President Melvin A. Brannon is not a radical, his interpreters say. He may be best described as an old fashioned American. He is a liberal conservative of the type of James Russell Lowell, or Charles Hughes, or Rev. Percy Stickney Grant, or Justice Holmes. He does not share all the opinions of the three professors under fire. But he is American. Big, virile, kindly, frank, he keeps an open mind. Educated a scientist, a trained bacteriologist, he knows that the salvation of individual, community, and nation is a sincere spirit of passionate inquiry. He is progressive. He tests education by what it does for the community. In a recent public statement, he said:

"A reasonable liberalism properly guarded is essential to the world's progress. A reasonable liberalism clamped down will produce explosions; and explosions are the one thing we must absolutely prevent in these peculiar times. There are too many explosions now. The president of a college has a tremendous responsibility in directing the minds of keen young men and women along sane and progressive lines. He must keep windows open to all cardinal points and be four square. Neither reactionaries nor Bolsheviks must close his windows. If either succeed, then the college becomes merely a propagandist instead of a real educator. Reasonable liberalism should not be feared by any honest man."

Beloit College is at the turning of the ways. Report says that there is no real assurance that the trustees or the burghers or the proponents of old-time education of the faculty will sup-

Here Are The People Who Want Intervention In Mexico

The foregoing signatures of oil companies in the Mexican petroleum fields represent the American business interests that want the United States to engage in a war with Mexico. The signatures were attached to a letter received recently by members of congress, including Oscar E. Keller, Minnesota, and John M. Baer, North Dakota. The letter admits that the oil companies have refused to obey the Mexican law by taking out permits before drilling new wells. Nevertheless these business interests want the United States to protect them in their outlaws.

port his platform of the liberalism of reason. That—in spite of the fact that Beloit College is called a college of LIBERAL arts. As a representative of a leading factory said, "Brannon is a fine administrator, but." That "but" covers the devious convolutions of a standpat brain.

If President Brannon leaves Beloit College, his supporters say, virility, honesty and democratic education will be exchanged for politeness, suavity and class education.

Herein lies the significance of this episode. It is not a private squabble; it is a public conflict. It is a public conflict for the rights of the public. And every citizen of Wisconsin is concerned. He can help or deter the progress of the state. He can help make Wisconsin American or Bourbon. A telegram or letter to Alexander Mathison, Beloit College trustee, Janesville, in behalf of President Brannon will count.

Sec. Wilson Provides for Bail for Aliens

WASHINGTON—Modifications in immigration regulations to insure the right of arrested aliens to counsel and bail were promulgated Wednesday by Secy. Wilson. He said that under the new regulations immigration officers must inform aliens of their rights.

"Whenever an attorney advises he, immigration officer in charge that he has been retained by some

third person or association as counsel for the alien the person under arrest must be informed forthwith of the facts and allowed to accept the counsel if he so desires," Secy. Wilson said. The regulations provide "that in every case where a hearing cannot be had immediately the alien must be admitted to bail pending hearing."

Dinner Stories

"Weatherstrip Jones," said the recorder. "What an odd name for a baby. Why did you call him that?" "Because the youngster kept me out of the draft," responded the proud father.

"I don't want to do anything wrong," said an elderly Shropshire woman who called upon an official of the ministry of food, "but when I die I should like my funeral to be properly carried out. She then confided that she had, in stock, her coffin and shroud, two bottles of whiskey and three tins of salmon."

This cheerful soul was quite pleased when told that she was "on the right side" so long as she did not add to her stock.

"Yes, sire!" proudly returned Emory Soonover, the combined town marshal, lynx-eyed sleuth, dog pelt and traffic cop of Grudge. "Never felt more fitful in my life by hookey. I attribute my long life and good health to an iron constitution, the habit of taking care of myself, and the keeping of proper and decent hours."

"No matter what's going on I take my nap every afternoon, and folks that are acquainted with me know better than to disturb me, for I'll sure pull 'em if they do. And then I am a regular crank about keeping union hours; if a prisoner is out after six o'clock, by gorry, I lock up the jail and he's got to stay out till morning!"

"Smith is mighty careless with the truth, isn't he?" said Brown.

"Yes," replied Jones. "Why, he'd try to deny it right after he had eaten a raw onion."

Voice of the People

"RED," "WHITE," OR "BLUE?"

To the Editor of The Capital Times: I don't know whether I am "red," or "white." At times I feel pretty sure that I am "white." I go down the street feeling fine, loving everybody and glad I live in the greatest country on earth, thinking what a glorious thing it would be to im-pale myself upon the point of a Mexican bayonet and listen to the hilarious shouts of approval up Wall Street, and turn suddenly into an eating emporium, either from habit, by way of diversion or maybe as a matter of necessity—to remove the cause of the irritating friction between vast buttons and vertebra—still loving everybody.

Twenty minutes later I come out seeing "pink" and start hunting for a place to buy a saved-off shot gun, a yard of lead-pipe and a bale of dynamite. Naturally then, I think I am "red" and proud of it.

I turn the street corner and the guttural sounds of "WUXTRA! WUXTRA!" WUXTRA!!! batters against my ear-drums. I buy a paper and quickly scan the black and glaring headlines. I nervously read:

"DRAG NET OUT FOR REDS," "ALL REDS TO BE DEPORTED," or—well by that time I am skulking down a side street, coat collar turned up, hat pulled down, glancing from side to side, expecting any moment to be seized by the strong hand of the government and hustled off to Siberia for thinking "red" thoughts.

In my room with drawn shades and dimmed lights I read that three house-maids who had loitered in the alley to brew the latest scandal in the house-maid world, had been detected by the ever watchful eye of some alert reporter, who had thereupon smashed all speed records getting back to the office, and who had, at the demand of the city editor, forthwith exhausted the anarchist vocabulary describing what was suspected (by the police) of being a deep-laid plot and a scarlet-dyed scheme to tie a red ribbon in the hair of the Goddess of Liberty and thus set up the House-Maid's Soviet in the grand old U. S. A.

I immediately plug the keyhole, pull a sock over the light globe and force a clothes-pin astride my nose lest my breathing be detected by the long ear of one of Palmer's sleuths and I thereupon be hustled off to Ellis Island without an opportunity to advise my friends of my departure or pay my last week's board bill.

If a man grumbles (without smiling), because he has to pay six prices for a meal consisting of a piece of steak cut from a horse-collared, a cup of coffee made from last week's grounds, one egg of the

well-known vintage of May, 1917, three cold hot-cakes the size of a quarter, a nickel, and a dime, respectively, with the small one on the bottom and tough enough to patch an automobile tire, enough butter to oil the hinges on grand-mother's spectacles, and enough log-house syrup to muss up the wings of a butterfly—if he does not smile and swear that he has honor that he don't see how the fellow can do it at that price, he is immediately branded free and aft as a "red," "radical," "bolshewiki."

If he complains because the train is a couple of days late, he is promptly denounced as an undesirable alien and begins to see visions of the land of Kolchak, Denikin & Company.

If he complains, even meekly, because his feet get cold, or because his neighbor's chickens get over in his back yard, some megaphone-voiced patriot sticks his muzzle six inches down his ear and screams "R-R-RED!"

When our ancestors landed on this continent they thought they had found the land of freedom—freedom of thought, speech, and assembly. In '76 they fought to establish it; in '92 they fought to maintain it, and in '18 and '19 we fought again to make not only this country, but the world, safe for it.

When the "oil" came, because there were some things about it that all of us did not understand, as did our wise president, we had the impertinence to ask questions, and make a few criticisms. As a result not a few of us are now trying to figure out how we will look when our twenty-year sentence is up.

We were told that we should not ask the government embarrassing questions at that time, but that we should shut our eyes, stop our ears and get behind it. And we did.

It's true, some of us were a long ways behind it—as far back as Wall Street, but we were behind it nevertheless, most of us pushing and some of us pulling—Uncle Sam's leg at a dollar a year!

Laboring men were told that if they would buckle in and help make the world safe for democracy that after it was over they would get all they wanted, trimmed and garnished on a silver platter.

What they got was an injunction against strikes, the sweet music of tramping (martial) feet and a glimpse into the muzzle of machine guns.

Farmers were told that if they would ask no questions but jump right in and help flay the beast of militarism by producing more, and still more, that as soon as the little job was over, the government would see to it that the long delayed justice to the farmers would be promptly delivered post paid by rural free delivery.

More than a year has passed since that job was finished and all the farmer has received is a trace of abuse, repeated charges of being profiteering-radicals—words (clothed in beautiful words—words only) announced that "The People Shall Not Be Robbed," and "We unto you profiteers, exploiters and price-booster."

Now that hand is paralyzed (figuratively speaking, of course), that voice is meek and mild, and the language is filled with weasel words—words of many meanings and sentences of various constructions.

The silver-lined clouds have drifted away. In their place there frowns the thunder-clouds of force-suppression and intimidation.

And so, I may not be "white," several say I am not. I deny that I am "red." But one thing I will admit: I am damned "blue."
